3 March 1964

Copy 2

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with [REDACTED]

REFERENCE: TID/TAB-104/63 dated 4 December 1963  
TID/TAB-107/63 dated 13 December 1963

1. On 26 February 1964 a meeting with the following attending was held at NPIC:

[REDACTED]

2. The purpose of the meeting was to review the latest proposal submitted by [REDACTED]. The proposal is for a "Recording Vertical Reference System" for the IDEALIST system. A copy of the proposal was given to [REDACTED] PDS/DB on 2 March 1962.

3. The adoption of cameras other than the "B" configuration in the IDEALIST program has imposed a requirement to develop some method by which the pitch and roll can be obtained. The enclosed proposal adequately fulfills TAB requirements combined with the fact that the system is not nearly as expensive as those previously submitted to [REDACTED] (For further information concerning other proposals contact [REDACTED] and/or see references.)

4. [REDACTED] indicated that if the proposal suited our purpose that he would be willing to have it developed along with the statiscope, if a memorandum stating our requirement is sent to him. Accordingly, [REDACTED] is preparing a staff study on the need for both the vertical gyro control and the statiscope.

[REDACTED]  
Chief, Technical Analysis Branch
